ACTIVATE THE BODY'S SELF-HEALING POWERS WITH MED SELECT.

Naturally restore body's self-regulation and healing capacity via bioresonance therapy.

Class 2A and CE marked
medically approved
therapeutic device
(FDA registered, approved
for market use in 20+ countries)

Self-regulation within our bodies usually suffers due to factors like chronic illnesses and acute infections. Med Select uses digital homeopathy and bioresonance to activate the self-healing ability through stimulating and balancing the body's own regulation system.

The causes of illness are electronically recorded from the patient's body and therapeutic information is delivered back to the body to neutralize or erase harmful influences completely.

This steers the regulation and healing capacity of the body back into balance in the most bio-individualized, effective and natural way!

Activates self-healing through bioresonance

Follows homeopathy philosophy-the more bio-individualized the treatment, **the faster is the healing process**

Impacts both **physiological and pathological** basis of health conditions

Integrated with **VDS technology** (digitized vibration information)

Equipped with semi and fully automatic therapy programs

Open system means **you can add unlimited number of new natural remedies for bioresonance**

Opens new perspectives in the **holistic medicine**

Based on the insights from, **System Information Therapy (SIT)**

Backed by insights from **physiology, biochemistry** and **metabolic** research

Confirmed experimentally at the Institute for Biophysics under **Dr. Wolfgang Ludwig**

Up to 3000 saved ampoules and many preset programs, used for 15+ years

How Med Select can help your patients

The system information therapy uses the patient's internal vibration information, i.e. biological frequency signals and homeopathic therapy information, as carrier signals. These biosignals are registered, stored and used by Med Select for SIT.

The low-frequency resonance vibrations correspond to the fundamental frequencies of organ and cells. This way, it stimulates the immune system, activates self-healing processes, and synergistically supports the therapeutic effects.

Steers the body's regulation back into the right channels through bioresonance therapy – which is the most modern form technically possible today.

Combats a variety of conditions including allergies, toxins, chronic pain, old diseases, skin issues, and circulation problems.

Improves the absorption of nutrients and oxygen and the breakdown of toxins and waste products.

Prevents virus and bacterial attacks to sustain and improve vitality.

Automatically matches the therapeutic strategies to patient-specific reactive capacity, metabolic situation, and stress burden.

Enables user-defined program combination for customizable therapy parameters.

Treats endogenous (patient-inherent) as well as exogenous (natural, synthetic) conditions with technical vibration information.

Enriches experience with SI (system information) cards free of side effects. A patient can comfortably wear them in a sock or in the chest pocket of the shirt. This is why it can even be used on children.

SI cards function on the basis of magnetic field vibrations. These bring metabolic cell activity back into line with the cell's own magnetic vibrations. This improves the absorption of nutrients and oxygen, and the breakdown of toxins and waste products, the healing process is accelerated and/or pain is reduced.
